

# MOOD DISORDER QUESTIONNAIRE

NAME: \_\_\_\_\_ DATE: \_\_\_\_\_

*Please answer the questions as best you can by putting a check in the appropriate box.*

1. Has there ever been a period of time when you were not your usual self and ...	Yes	No
... you felt so good or so hyper that other people thought you were not your normal self or you were so hyper that you got into trouble?		
... you were so irritable that you shouted at people or started fights or arguments?		
... you felt much more self-confident than usual?		
... you got much less sleep than usual and found that you didn't really miss it?		
... you were more talkative or spoke much faster than usual?		
... thoughts raced through your head or you couldn't slow your mind down?		
... you were so easily distracted by things around you that you had trouble concentrating or staying on track?		
... you had much more energy than usual?		
... you were much more active or did many more things than usual?		
... you were much more social or outgoing than usual; for example, you telephoned friends in the middle of the night?		
... you were much more interested in sex than usual?		
... you did things that were unusual for you or that other people might have thought were excessive, foolish, or risky?		
... spending money got you or your family into trouble?		

	Yes	No
2. If you checked <b>Yes</b> to more than one of the above, have several of these ever happened during the same period of time?		

	No Problem	Minor Problem	Moderate Problem	Serious Problem
3. How much of a problem did any of these cause you (like being unable to work; having family, money, or legal troubles; and/or getting into arguments or fights)?				

The Mood Disorder Questionnaire (MDQ) was developed by Robert M. A. Hirschfeld, MD (University of Texas Medical Branch), and published in the *American Journal of Psychiatry*. (Hirschfeld RMA, Williams JBW, Spitzer RL, et al. Development and validation of a screening instrument for bipolar spectrum disorder: the Mood Disorder Questionnaire. *Am J Psychiatry*. 2000;157:1873-1875.)
